DETAILED ACTION

1. It would be of great assistance to the Office if all incoming papers pertaining to a filed application carried the following items:

1. Application number (checked for accuracy, including series code and serial no.).
2. Group art unit number (copied from most recent Office communication).
3. Filing date.
4. Name of the examiner who prepared the most recent Office action.
5. Title of invention.
6. Confirmation number (See MPEP § 503).

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 5,39,63,81 (94-106,120-131,145-170) are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Following the 101 guideline; the claimed invention are directed to an abstract idea (mathematical algorithm).

The claimed inventions do not produce a Useful, Tangible, and Concrete Result or Physical transformation. The output, which in this case is the burst information, is indexed based on the arrival time of the burst information. The phase ambiguity that is generated by the claimed invention is not used for processing the burst information.(see 101guidline page 30)

Allowable Subject Matter

3. Claims 23,50,108-119,133-144 are allowed.

Response to Arguments

4. Applicant's arguments filed 7/7/06 have been fully considered but they are not persuasive. Applicant argues that the phase ambiguity that is generated by the claimed invention is useful and tangible result. Examiner does not dispute that the phase ambiguity is useful for processing the burst information. However,, the **phase ambiguity** that is generated is never used for processing the burst information as claimed in the present claimed invention.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
